Outdoor Lighting Systems

About Our Products

Nite Time Decor has been designing and installing landscape lighting systems since 1998. Using our extensive experience, we have developed our own exclusive product line that delivers efficiency, performance, and value to our clients. As we've developed each product, we've focused primarily on construction, design, and value—as the product has to be durable, but also applicable and affordable. We are not interested in installing systems that do not perform long term—we want each installation to look as good years from now as it did the day it was installed.

- Long-lasting Construction
- Stand Up to Harsh Climate
- Balanced Value

NTD Fixtures

The long-term value and performance of a landscape lighting system can be limited by using poor-quality fixtures. At Nite Time Decor, we recognize this, and have secured our own exclusive product line, ensuring that each job is done using the highest quality components. We've developed a fixture for every application—with most products being constructed of durable, cast brass.

- Beryllium Sockets
- 25' Lead 18 Gauge wire
- Pre-Greased Sockets
- Heat Shrink Protected Wires
- Thumb Screw Adjustments

SPOTWB

NTD Lamps

The Lamp does the lighting, thus it is critical to use the best quality product to achieve the optimum results. Our LED lamps use only CREE LED Chips. We stock PAR36, MR16 MR11, and Bi-pin LED retro lamps with wattage and beam spread options. Furthermore, we stock a complete selection of incandescent lamps in a variety of wattages and beam spreads to meet your application.

BIPIN

PAR36

MR16

MR11

NTD Controllers

Automation of your landscape lighting system creates convenience and cost savings for you—your system can be set to turn on and off whenever you want, and you don't have to worry about it. We carry a selection of the most technologically-advanced controllers in the industry, which can be incorporated into your landscape lighting system quickly and efficiently.

Dimmer Switch

PhotoCell Timer

Astro Timer

NTD Transformers

The transformer serves as the 'heartbeat' of the landscape lighting system. Our transformers are designed for performance—constructed of the most durable materials with the most efficient operation. We carry transformers that are suited for today's LED projects as well as larger transformers designed for big installations. Transformers are available in 50 to 600 watt sizes.

75W Transformer

300W Transformer

600W Transformer

NTD Installation Accessories

A landscape lighting installation is only as good as its weakest point. That's why Nite Time Decor uses only the finest in installation tools and accessories. Each component we use has been selected or developed based on our years of field experience—we know what it takes to assemble a high-performance landscape lighting system.

Surface Wall Mount

Commercial Brass Well Light Grate

Gutter Mount Bracket

NTD Limited Time Warranty

Nite Time Decor guarantees the quality of our products and installation with one of the most comprehensive warranties in the industry. It protects the system and components for years and is effective after the original installation is completed. The warranty DOES NOT cover acts of nature, such as lightning strikes and damage due to physical abuse or vandalism. The warranty is void if anyone other than a Nite Time Decor contractor accesses the transformer for any reason other than the timer adjustment. We will make timely replacements and/or repairs as described below at no additional charge.

● Transformer Warranty

Nite Time Decor outdoor transformers carry a lifetime warranty.

● Light Fixture Warranty

Nite Time Decor guarantees light fixtures for a lifetime, from the installation date.

● Wire Warranty

Nite Time Decor outdoor low-voltage wire is covered by a 10-year warranty.

● Lighting Control Automation Warranty

Nite Time Decor timers, controls, and other automation modules carry a 1-year limited warranty.

● Lamp Warranty

Nite Time Decor lamps are covered by a 7-year limited warranty from the initial date of system installation. Only when a Nite Time Decor contractor replaces or installs the lamps does the warranty apply. The installation of the incorrect lamps by the property owner or another firm that causes system failure and/or fixture damage are not covered by warranty.

● Installation Warranty

Nite Time Decor guarantees installation for one (1) year from installation date. We offer a lifetime warranty on any lighting system that we design, install and maintain. If you choose not to maintain your lighting system with our current maintenance program, your system will be covered only to the limits listed above, or the limits of the individual manufacturer's warranty of the products used in the design. This warranty covers the performance of the fixtures, transformer and installation. All quality fixtures will experience some finish changes over time. This will not affect their performance, rather increases their appeal. All automation components are covered by their specific manufacturer's warranty.

Decor Smart – Bluetooth RGB Landscape Lighting

Bluetooth controlled landscape lighting brought to you by Decor Smart. Easy and powerful control of all your landscape lighting products that allow you to control your lights individually or in customized groups. Schedule colors and effects by day or with our patented calendar scheduler. Schedule specific lighting for parties, birthdays, or your favorite sports teams. Transform your home's curb appeal for every season and be the envy of your neighbors and friends. The possibilities are endless.

Our Decor Smart technology is constantly improving. We are continuously looking for ways to use Decor Smart to help you create the outdoor lighting experience you've always dreamed of. Download our Decor Smart App to control, schedule, and change the colors all of your Decor Smart Lights with the push of a button.
